PROFESSIONAL SUMMARY

Full Stack .NET Developer with 3+ years of experience in developing scalable web applications. **Strong expertise in .NET Framework and .NET Core, Angular, and SQL (MySQL, Microsoft SQL Server), with hands-on experience in end-to-end application** development. Skilled in full stack development, **including backend systems, RESTful API design, and building responsive user interfaces using Angular. Experienced in SQL query optimization** and cross-functional collaboration to deliver high-performance applications, while staying updated with the latest industry technologies. **Recognized with the Best Debutant Award (2025-26) for outstanding performance.**

SKILLS

- **Programming Languages:** C#, TypeScript
- **Backend (Frameworks):** .NET Core, .NET Framework
- **Cloud:** Azure fundamentals (Az900)
- **Frontend (UI & Frameworks):** HTML, CSS, Bootstrap, Angular, Ionic
- **Databases:** Microsoft SQL Server, MySQL

EXPERIENCE

1. **Junior Software Engineer | SRF Ltd, Chennai | February 2025 – Present**
   - Developed and maintained a **Visitor Management System (VMS)** using **.NET Core, Angular, and SQL Server** for efficient visitor tracking and management
   - Designed and developed responsive user interfaces using **Angular** to enhance usability and user experience
   - Implemented dynamic form configuration to manage **mandatory and non-mandatory fields** across multiple invite workflows
   - Designed and implemented a **role-based access control (RBAC) feature** to enable secure login from the staff portal to the student portal, incorporating user validation and authorization logic
   - Developed a **dashboard using Ionic framework** to provide real-time insights and monitoring
   - Worked on **compliance modules using .NET Web Forms**, ensuring adherence to organizational processes.

2. **Junior Software Programmer | Vcidex Solutions Pvt Ltd, Chennai | August 2023 – January 2025**
   - Developed and maintained CRM applications using **.NET Framework Web API, Angular, and MySQL**
   - Developed application modules from **master to transaction level**, ensuring smooth data flow and system consistency
   - Integrated **Spark-Post email services using RESTful APIs**, to increase campaign effectiveness.
   - Integrated **Shopify e-commerce platform** with CRM for seamless synchronization of customer, order, and inventory data
   - Created **dashboard features** for monitoring and data visualization within the application
   - Designed and implemented a **multi-channel campaign system** integrating WhatsApp, SMS, Gmail, Outlook, and tele-calling.
   - Received a **Cash Award for outstanding contribution to delivery and production support.**

PORTFOLIO PROJECT 🔗

1. **Task Management System:** Web platform to manage, track, and assign tasks efficiently.
   Tech Stack: C#, .NET Core, Angular, SQL Server, JWT Authentication, Email Notifications.
   Features: Task creation/editing, role-based access (User/Admin), real-time updates, secure login.

CERTIFICATION

- Dot Net Core
- MySQL
- Azure Fundamentals (Az900)
- Python

EDUCATION

- B.E Mechanical Engineering | Government College of Engineering, Dharmapuri | 2022
- Diploma in Production Engineering | Thiagarajar Polytechnic College, Salem | 2019
